DRŽAVNI ZAVOD ZA STATISTIKU

**PRESS RELEASE  
ON ISSUING  
OF THE RESULTS OF THE CENSUS OF POPULATION,  
HOUSEHOLDS AND DWELLINGS IN THE REPUBLIC OF CROATIA IN 2011**

The Croatian Bureau of Statistics is issuing the results of the Census of Population, Households and Dwellings in the Republic of Croatia in 2011, carried out in the period from 1 to 28 April 2011, with the situation as on 31 March 2011.

The Census was carried out on the basis of the Act on the Census of Population, Households and Dwellings in the Republic of Croatia in 2011 (Official Gazette, No. 92/10).

In order to provide for the international comparability of data, the Methodology applied in the Census 2011 is harmonised with the Conference of European Statisticians Recommendations for the 2010 Censuses of Population and Housing, that is, with the Regulations Nos. 763/2008 and 1201/2009 of the European Parliament and of the Council, which regulate the censuses of population and housing in the European Union.

In line with the Publishing Programme and the Calendar of Statistical Data Issues for 2012, the Croatian Bureau of Statistics issues the results that refer to the number of population by sex, age, citizenship, ethnicity, religion and mother tongue. Since 17 December 2012 at 11 a.m., these results have been available at the web site of the Croatian Bureau of Statistics ([www.dzs.hr](http://www.dzs.hr)).

The Croatian Bureau of Statistics will issue other Census 2011 data successively in the course of 2013.

Data on population collected by the 2011 Census cannot be directly compared to the Census 2001 data, because in the meantime the statistical definition of the total population has been changed.
