2) At-risk-of-poverty threshold is defined as 60% of median net income of all households.
3) The difference between the at-risk-of-poverty threshold and equivalent median income of persons below the at-risk-of-poverty threshold was expressed as a percentage of the at-risk-of-poverty threshold.

1) Broj zaposlenih uključuje zaposlene u pravim osobama, zaposlene u obrtni i slobodnim profesijama te osigurana poljoprivrednike. Do 2004. u podatke o zaposlenima po županijama nisu uključeni zaposleni u policiji i obrani, a za Republiku Hrvatsku jesu. Zbog toga se zbroj zaposlenih po županijama do 2004. razlikuje u odnosu na ukupan broj zaposlenih u Republici Hrvatskoj.

1) Total persons in employment include persons in paid employment in legal entities, persons in employment in crafts and trades and free lances as well as insured persons — private farmers. Until 2004, data on persons in employment in the police and defence were not included in data on persons in employment by counties, while they were included in data for the Republic of Croatia. Therefore, data on the number of persons in employment by counties until 2004 differs from the total number of persons in employment in the Republic of Croatia.
